

**1. IDENTIFICATION OF THE PRODUCT
IDENTIFICATION OF THE PRODUCER**

Trade Name: **CONTROL PLUS One Phase Gel thin clear**
 Characteristic: **Cosmetics.**
 Importer/Distributor: **La Femme Cosmetics Sp. z o.o.**
 ul. Chylońska 210
 81-007 Gdynia, Polska
 Tel: +48 (58) 774 40 00
 Fax: +48 (58) 661 40 29
 Date of issue: 17.11.2009

2. HAZARD IDENTIFICATION

Product is classified as hazardous.
 Product classification: **Xi; R36/37/38; R43, R52/53**

Fire menace:

- product is flammable liquid
- product emits toxic gases during the fire

Health menace:

- product is irritant
- product is irritating to eyes, respiratory system and skin
- may cause sensitization by skin contact.

Ecological menace:

- product is classified as dangerous for an environment
- product is harmful to aquatic organisms
- product may cause long-term adverse effects in the aquatic environment.
- to proceed compliance with the instruction or safety data sheet
- avoid dumping into environment

3. COMPOSITION / INFORMATION ON INGREDIENTS

Classified according to European Regulation (EC) No 1272/2008 of the European Parliament and of the council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006

30÷60%	Aliphatic urethane acrylate copolymer	Index No: - XI: R36/38	CAS No: proprietary	EC No: proprietary
20÷40%	Aliphatic urethane acrylate copolymer	Index No: - XI: R36	CAS No: proprietary	EC No: proprietary
2÷10%	Aliphatic urethane dimethacrylate copolymer	Index No: - XI: R36; R43; N: R51/53	CAS No: proprietary	EC No: proprietary
2÷10%	Aliphatic hexacrylate	Index No: - XI: R36	CAS No: proprietary	EC No: proprietary
1÷<5%	Acrylic acid	Index No: 607-061-00-8 R10; Xn: R20/21/22; C: R35; N: R50	CAS No: 79-10-7	EC No: 201-177-9
1÷5%	Isobornyl methacrylate	Index No: - XI: R36/37/38	CAS No: 7534-94-3	EC No: 231-403-1
0,1÷0,9%	Tripropyleneglycol diacrylate			

Index No: 607-249-00-X Xi: R36/37/38; R43; N: R51/53	CAS No: 42978-66-5	EC No: 256-032-2
---	--------------------	------------------

Meaning of symbols and risk phrases – see Section 16.

4. FIRST AID MEASURES**Inhalation:**

- injured person transport to well-ventilated room
- get medical attention

Eye contact:

- wash out with plenty of water for least 10-15 minutes with the eyelid held wide open; avoid strong stream of water, which can cause cornea injury
- does not use any liquids or ointment before getting medical attention
- remove any contact lenses
- get medical attention

Skin contact:

- remove contaminated clothing
- wash off with plenty of water and soap
- do not use any solvents or diluents
- get medical attention

Ingestion:

- consumption is unlikely because of the form of product – aerosol
- rinse mouth with plenty of water
- do not serve anything to drink
- do not evoke vomiting
- get medical attention

5. FIRE FIGHTING MEASURES**Fire menace:**

- product is flammable liquid
- product emits toxic gases during the fire

Suitable extinguishing media:

- carbon dioxide (CO₂)
- fire extinguishing powder
- alcohol resistant foam
- water- diffuse stream

Not suitable extinguishing media:

- water-strong stream

Cool down intact containers with water to prevent bursting and if possible remove from fire

Hazardous combustion products:

- carbon oxide and dioxide
- toxic gas and smoke

Recommended protective equipment:

- self-contained breathing apparatus and chemical protection suits

6. ACCIDENTAL RELEASE MEASURES**General recommendations:**

- inform appropriate service
- remove from dangerous area people not taking part in liquidating damage

Personal precautions:

- self-contained breathing apparatus
- avoid gas and steam inhaling
- avoid contact with skin and eyes
- chemical protection gloves and suits
- wear tightly goggles or face shield

Particular recommendations:

- remove all fire source
- do not smoke

Environmental precautions:

SAFETY DATA SHEET

17.11.2009

- bank leak with incombustible, absorptive material (sand, infusorial earth), and gather in closed, meant container; polluted area flush with water
- liquidate leak
- remove all fire source
- prevent discharge to water source and drain
- contact with local authority if discharge to water source or drain

Methods for cleaning up:

- small leak bank leak with incombustible, absorptive material (sand, infusorial earth), and gather in closed, meant container; polluted area flush with water
- ventilate polluted compartment
- after sweep up area may be flushed with water

7. HANDLING AND STORAGE

Handling:

- product vapour with air is flammable and explosive mixture, prevent high product vapour concentration in air
- during handling ventilate compartment; prevent product aerosol formation
- handle in accordance with good occupational hygiene and safety practices
- avoid inhalation
- product can accumulate electrostatic charge – fire hazard
- product can not contact with hot surface, flame and fire source
- do not smoke
- avoid contact with skin and eyes
- avoid inhalation
- avoid prolonged and repeated exposure

Storage instructions:

- overt container keep in vertical position
- do not smoke in store
- keep container tightly closed
- keep away from sunlight
- keep away from flame, sparks and heat sources

Requirements concerning storage space:

- cool, dry and well ventilated

Containers:

- storage only in original containers
- keep containers tightly closed and well labeled
- protect container from damage

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Personal protection:

- after handling wash whole body
- polluted clothes launder before following use

Skin protection:

- protective suit (antistatic)

Hand protection:

- wear protective gloves resistant to organic solvent (PCV, viton rubber, do not use latex or PCV)

Eye protection:

- wear protective goggles

Respiratory equipment:

- in case of normal use is not required (well ventilated compartment)
- in case of long-lasting exposing use self-contained respiratory equipment

General:

- requisite eye-washing stand
- avoid contact with skin and eyes

Exposure Limits:

--

9. PHYSICAL AND CHEMICAL PROPERTIES

SAFETY DATA SHEET

17.11.2009

physical state:	transparent, viscous liquid
color:	colorless
odour:	slightly, ester-like
pH:	5-6
boiling point:	>100°C
melting point:	-
autoignition point:	-
ignition point:	>100°C
explosion limits(vol%):	
- lower:	-
- upper:	-
flammability	does not cause hazard
explosive properties	does not cause explosive menace
oxidizing properties:	-
vapor pressure:	<1 mmHg (20°C)
density:	-
vapor density:	-
solubility in water	slightly miscible
solubility in organic solvent:	miscible with most organic solvents
partition coefficient(n-octanol/water):	-
viscosity:	110000 cPs

10. STABILITY AND REACTIVITY

Stability:

- stable at normal conditions

Conditions to avoid

- sunlight and ultraviolet radiation (product may polymerize)
- heat (above 50°C - product may polymerize)
- warming up may cause packing explosion

Materials to avoid:

- polymerization initiators (peroxides, strong oxidants, cooper, cooper alloy, carbon steel, rust and strong bases)

Dangerous decomposition products:

- carbon oxides
- nitrogen oxides
- toxic gas and smoke

11. TOXICOLOGICAL INFORMATION

Health menace:

- product is irritant
- product is irritating to eyes, respiratory system and skin
- may cause sensitization by skin contact.

Toxicological information:

-

Other information:

- skin: cause irritation and sensitization
- eyes : cause irritation to eyes , redness, lacrimation (high concentration)
- inhalation: vapour are irritant; cause central nervous system- stupefaction
- consumption: may be irritant to mucous membranes in digestive system, stomachache, nausea, vomiting, diarrhea

12. ECOLOGICAL INFORMATION

Ecological menace:

- product is classified as dangerous for an environment
- product is harmful to aquatic organisms
- product may cause long-term adverse effects in the aquatic environment.
- to proceed compliance with the instruction or safety data sheet
- avoid dumping into environment

Ecotoxicity:

Tripropyleneglycol diacrylate:

- LC50 Fish *Leuciscus idus*: 4,5+< 10mg/dm³/96 h

Biodegradation:

Aliphatic urethane acrylate copolymer: 22% (OECD 301F)

Tripropyleneglycol diacrylate: 40-50% (OECD 301B)

Product mobility, bioconcentration:

- no data available

13. DISPOSAL CONSIDERATIONS

Discards procedure:

- product is classified as dangerous for an environment
- handle contaminated packing in the same way as the substance itself
- do not purge into savage system
- do not store at waste dump
- neutralizing – thermal utilization (chemicals incineration furnace)

Content of package:

- type of discard: other discards
- discard code: 07 06 99

Package:

- type of discard: plastic package
- discard code: 15 01 02
- type of discard: metal package
- discard code: 15 01 04

14. TRANSPORT INFORMATION

Transport information:

Product does not cause transport menace

15. REGULATORY INFORMATION

Markings according to EU guidelines:

The product has been classified and marked in accordance with EU Directives.

Hazard symbol:

Xi Irritant

Risk phrases:

- R36/37/38 Irritating to eyes, respiratory system and skin
- R43 May cause sensitization by skin contact.
- R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Safety phrases:

- S23 Do not breathe vapour
- S24/25 Avoid contact with skin and eyes
- S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice
- S28 After contact with skin, wash immediately with plenty of water and soap
- S36/37/39 Wear suitable protective clothing, gloves and eye/face protection
- S61 Avoid release to the environment. Refer to special instructions/safety data sheets.

In case of retail trade use additional safety phrase: "S2 Keep out of reach of children" and "S45 In case of accident or if you feel unwell, seek medical advice immediately (*show the label where possible*)".

This data sheet is particularly in accordance with European Regulation (EC) No 1272/2008 of the European Parliament and of the council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.

16. OTHER INFORMATIONS**Meaning of symbols and risk phrases:**

Xn	Harmful
C	Corrosive
Xi	Irritant
R10	Flammable
R20/21/22	Harmful by inhalation, in contact with skin and if swallowed
R36	Irritating to eyes
R36/37/38	Irritating to eyes, respiratory system and skin
R36/38	Irritating to eyes and skin
R35	Cause burns
R43	May cause sensitization by skin contact.
R50	Very toxic to aquatic organisms.
R51	Toxic to aquatic organisms.
R53	May cause long-term adverse effects in the aquatic environment

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. This does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.

Safety Data Sheet made by: **CHEM-NET S.C.** 91-716 Łódź, Nowopolska 9A; biuro@chem-net.info
