

**1. IDENTIFICATION OF THE PRODUCT
IDENTIFICATION OF THE PRODUCER**

Trade Name: UV cleaner 100 ml
Characteristic: Cosmetics.
Importer/Distributor: La Femme Cosmetics Sp. z o.o.
ul. Chylońska 210
81-007 Gdynia, Polska
Tel: +48 (58) 774 40 00
Fax: +48 (58) 661 40 29
Date of issue: 16.04.2009

2. HAZARD IDENTIFICATION

Product is classified as hazardous.

Product classification: R10

Fire menace:

- product is flammable liquid
- mixture of vapour and air may be explosive
- product emits toxic gases during the fire

Health menace:

product does not cause menace

Ecological menace:

- product is not classified as dangerous for an environment
- to proceed compliance with the instruction or safety data sheet
- avoid dumping into environment

3. COMPOSITION / INFORMATION ON INGREDIENTS

Classified according to European directive (2008/112/WE) on classification of hazardous substances and preparations.

80%	Ethanol		
	Index No: 603-002-00-5	CAS No: 64-17-5	EC No: 200-57-86
	F: R11		

Meaning of symbols and risk phrases – see Section 16.

4. FIRST AID MEASURES**Inhalation:**

- injured person transport to well-ventilated room
- get medical attention

Eye contact:

- wash out with plenty of water for least 10-15 minutes with the eyelid held wide open; avoid strong stream of water, which can cause cornea injury
- does not use any liquids or ointment before getting medical attention
- remove any contact lenses
- get medical attention

Skin contact:

- remove contaminated clothing
- wash off with plenty of water and soap
- do not use any solvents or diluents
- get medical attention

Ingestion:

- consumption is unlikely because of the form of product – aerosol
- rinse mouth with plenty of water
- do not serve anything to drink
- do not evoke vomiting
- get medical attention

5. FIRE FIGHTING MEASURES

Fire menace:

- product is flammable liquid
- mixture of vapour and air may be explosive
- product emits toxic gases during the fire

Suitable extinguishing media:

- carbon dioxide (CO₂)
- fire extinguishing powder
- alcohol resistant foam
- water- diffuse stream

Not suitable extinguishing media:

- water-strong stream

Cool down intact containers with water to prevent bursting and if possible remove from fire

Hazardous combustion products:

- carbon oxide and dioxide
- toxic gas and smoke

Recommended protective equipment:

- self-contained breathing apparatus and chemical protection suits

6. ACCIDENTAL RELEASE MEASURES**General recommendations:**

- inform appropriate service
- remove from dangerous area people not taking part in liquidating damage

Personal precautions:

- self-contained breathing apparatus
- avoid gas and steam inhaling
- avoid contact with skin and eyes
- chemical protection gloves and suits
- wear tightly goggles or face shield

Particular recommendations:

- remove all fire source
- do not smoke

Environmental precautions:

- bank leak with incombustible, absorptive material (sand, infusorial earth), and gather in closed, meant container; polluted area flush with water
- liquidate leak
- remove all fire source
- prevent discharge to water source and drain
- contact with local authority if discharge to water source or drain

Methods for cleaning up:

- small leak bank leak with incombustible, absorptive material (sand, infusorial earth), and gather in closed, meant container; polluted area flush with water
- ventilate polluted compartment
- after sweep up area may be flushed with water

7. HANDLING AND STORAGE**Handling:**

- product vapour with air is flammable and explosive mixture, prevent high product vapour concentration in air
- during handling ventilate compartment; prevent product aerosol formation
- handle in accordance with good occupational hygiene and safety practices
- avoid inhalation
- product can accumulate electrostatic charge – fire hazard
- product can not contact with hot surface, flame and fire source
- do not smoke
- avoid contact with skin and eyes
- avoid inhalation
- avoid prolonged and repeated exposure

Storage instructions:

- overt container keep in vertical position
- do not smoke in store

- storage temperature 5+30°C

- keep container tightly closed
- keep away from sunlight
- keep away from flame, sparks and heat sources

Requirements concerning storage space:

- cool, dry and well ventilated

Containers:

- storage only in original containers
- keep containers tightly closed and well labeled
- protect container from damage

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Personal protection:

- after handling wash whole body
- polluted clothes launder before following use

Skin protection:

- protective suit

Hand protection:

- wear protective gloves resistant to organic solvent (nitril-, butyl rubber or PCV)

Eye protection:

- wear protective goggles

Respiratory equipment:

- in case of normal use is not required (well ventilated compartment)
- in case of long-lasting exposing use self-contained respiratory equipment

General:

- requisite eye-washing stand
- avoid contact with skin and eyes

Exposure Limits:

--

9. PHYSICAL AND CHEMICAL PROPERTIES

physical state:	transparent liquid
color:	colorless
odour:	characteristic, like alcohol
pH:	-
boiling point:	78÷100°C
melting point:	-
autoignition point:	425°C
ignition point:	22°C
explosion limits(vol%):	
- lower:	3,5% (v/v)
- upper:	15% (v/v)
flammability	highly flammable
explosive properties	does not cause explosive menace
oxidizing properties:	-
vapor pressure:	34 mmHg (20°C)
density:	0,878 g/cm ³ (20°C)
vapor density:	-
solubility in water	miscible
solubility in organic solvent:	miscible with most organic solvents
partition coefficient(n-octanol/water):	-
viscosity:	-
VOC:	67%

10. STABILITY AND REACTIVITY

Stability:

- stable at normal conditions

Conditions to avoid

- sunlight, ignition source
- heat

Date; 16 Apr 2009

Version : 01

Materials to avoid:

- strong oxidants, bases

Dangerous decomposition products:

- carbon oxides
- toxic gas and smoke

11. TOXICOLOGICAL INFORMATION**Health menace:**

- product does not cause menace

Toxicological information:

LD50 (rat, ingestion): 1470 mg/kg

Other information:

skin: does not cause menace

eyes : cause irritation to eyes , redness, lacrimation (high concentration)

inhalation: may cause drowsiness and dizziness

consumption: may be irritant to mucous membranes in digestive system, stomachache, nausea, vomiting, diarrhea

12. ECOLOGICAL INFORMATION**Ecological menace:**

- product is not classified as dangerous for an environment
- to proceed compliance with the instruction or safety data sheet
- avoid dumping into environment

Ecotoxicity:

LC50 (fish): >10000 mg/dm³

Product mobility, bioconcentration and biodegradation:

- no data available

13. DISPOSAL CONSIDERATIONS**Discards procedure:**

- product is classified as dangerous for an environment
- handle contaminated packing in the same way as the substance itself
- do not purge into sewage system
- do not store at waste dump
- neutralizing – thermal utilization (chemicals incineration furnace)

Content of package:

- type of discard: Other organic discards, parent fluid or and fluid from washing
- discard code: 07 01 04

Package:

- type of discard: plastic package
- discard code: 15 01 02
- type of discard: glass package
- discard code: 15 01 07

14. TRANSPORT INFORMATION**Transport information:**

UN: 1266

Package group: II

Classification code: F1

Hazard number: 33

Label:

15. REGULATORY INFORMATION**Markings according to EU guidelines:**

The product has been classified and marked in accordance with EU Directives.

Hazard symbol:

Date: 16 Apr 2009

Version : 01

Risk phrases:

R10 Flammable

Safety phrases:S9 Keep container in a well-ventilated place
S16 Keep away from sources of ignition
S33 Take precautionary measures against static discharges.

In case of retail trade use additional safety phrase: "S2 Keep out of reach of children" and "S45 In case of accident or if you feel unwell, seek medical advice immediately (*show the label where possible*)".

This data sheet is particularly in accordance with the European directives 2008/112/WE.

16. OTHER INFORMATIONS**Meaning of symbols and risk phrases:**F Highly flammable
R11 Highly flammable

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. This does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.

Safety Data Sheet made by: **CHEM-NET S.C.** 91-716 Łódź, Nowopolska 9A; biuro@chem-net.info
